# Layla's Full Heart

*A Tribute Song*

---

**Intro - acoustic guitar, piano**

**Verse 1**

First I remember your tiny tongue's soft kiss  
A little bark for the ball, you wouldn't ever miss.  
Underneath the furniture, you'd make your stand  
A fierce little guardian, with courage close at hand.  
A spirited Yorkie, with a feisty, sweet way  
You filled every moment of every single day.  
With your playful spirit and your loving gaze  
We cherished your presence through all of life's maze.

**Chorus**

Oh, Layla, our sweet girl, so small and so grand  
For fifteen short years, you blessed this land.  
You made my heart full, my forever baby, so true  
My love will be with you, in all that I do.

**Verse 2**

When the day was done, and the house grew still  
You'd climb your ramp, with a loving will.  
Snuggled so close between us, a comforting sigh  
My husband and I, beneath the night sky.  
Your little head resting, a quiet, deep peace  
Bringing all of our worries and our spirits release.  
A perfect moment, a bond understood  
More than a pet, you were family, so good.

**Chorus**

Oh, Layla, our sweet girl, so small and so grand  
For fifteen short years, you blessed this land.

---

*Layla's Full Heart (continued)*

You made my heart full, my forever baby, so true  
My love will be with you, in all that I do.

**Bridge**

You were my forever baby, that much is true  
Every moment with you, my heart grew and grew.  
I love you forever, my dear, precious friend  
A love like ours, it will never truly end.

**Instrumental - acoustic guitar, piano, cello**

**Final Chorus**

Oh, Layla, our sweet girl, so small and so grand  
For fifteen short years, you blessed this land.  
You made my heart full, my forever baby, so true  
My love will be with you, in all that I do.

**Outro - acoustic guitar fade, soft hum**

Now I see you running, with a super ball in tow  
Next to Bruiser and Jersey, in a peaceful glow.  
Free and joyful, beneath heavens wide  
Our sweet Layla, forever by our side.

*Forever in our hearts*
