# Foxy's Porch Light

*A Tribute Song*

---

**Intro - acoustic guitar, mandolin**

**Verse 1**

I recall the day we met, that joyful, happy grin  
A loyal heart, I won't forget, where our sweet story could begin  
A little Pomeranian mix, so full of charm and grace  
You knew just how to cast your tricks, and find your special place

**Chorus**

Oh, Foxy, my dear Foxy, eleven years and half a year more  
A bond so deep, right to the core, the love I still adore  
My little girl, my shining light, a joy I won't forget  
You made my whole world feel so bright, my cherished, faithful pet

**Verse 2**

On the porch swing, side by side, watching the world go by  
You'd bark at every squirrel you spied, beneath the summer sky  
My brave protector, small and grand, keeping all the dangers far  
You'd rest your head within my hand, my own bright, morning star

**Chorus**

Oh, Foxy, my dear Foxy, eleven years and half a year more  
A bond so deep, right to the core, the love I still adore  
My little girl, my shining light, a joy I won't forget  
You made my whole world feel so bright, my cherished, faithful pet

**Bridge**

Buried now right by the door, where you can watch me still  
No sickness haunts you anymore, just peace upon that hill  
My little girl, my truest friend, the hardest day I've known

---

*Foxy's Porch Light (continued)*

I'll love and miss you 'til the end, you're never truly gone

**Instrumental - mandolin, acoustic guitar**

**Final Chorus**

Oh, Foxy, my dear Foxy, eleven years and half a year more  
A bond so deep, right to the core, the love I still adore  
My little girl, my shining light, a joy I won't forget  
You made my whole world feel so bright, my cherished, faithful pet

**Outro - acoustic guitar fade**

Miss us being together every day, a quiet ache inside  
But you are resting, far away, with nothing left to hide.  
My little girl.

*Forever in our hearts*
