# Rose's Morning Dance

*A Tribute Song*

---

**Intro - acoustic guitar, glockenspiel**

**Verse 1**

My sweet King Charles, a joy to behold,  
Your first happy dance, a story often told.  
You'd snore soft beside me, a comforting sound,  
Always close, my safe spot you had found.  
Your cuddles against my back, so warm and tight,  
You were always looking for me, morning, noon, and night.  
A loyal heart, so pure and true,  
My beautiful Rose bud, I remember you.

**Chorus**

Oh, Beautiful Rose bud, my precious friend,  
For eight and a half years, our love had no end.  
You filled every moment with laughter and grace,  
Now your memory shines, in its rightful place.

**Verse 2**

You loved to sleep in, curled up in your bed,  
But 5 AM meant potty, as I gently led.  
Then breakfast was coming, you couldn't delay,  
Your little dance in circles, brightening my day.  
A happy spin, with wagging tail so free,  
Full of morning joy, for all the world to see.

**Chorus**

Oh, Beautiful Rose bud, my precious friend,  
For eight and a half years, our love had no end.  
You filled every moment with laughter and grace,  
Now your memory shines, in its rightful place.

---

*Rose's Morning Dance (continued)*

**Bridge**

Run free my sweet beautiful Rose, run free now and play,  
Rest easy, no more struggling breath, from this day.  
I love you so much, my sweet and beautiful baby, it's true,  
If love could save you, we'd be together forever, me and you.

**Instrumental - ukulele, piano, light drums**

**Final Chorus**

Oh, Beautiful Rose bud, my precious friend,  
For eight and a half years, our love had no end.  
You filled every moment with laughter and grace,  
Now your memory shines, in its rightful place.

**Outro - acoustic guitar fade, glockenspiel**

I hope you are dancing in heaven with God, so bright,  
Watching over me, bathed in eternal light.  
I still love and miss you, my dear sweet pet,  
Can't wait to see you again, I'll never forget.

*Forever in our hearts*
