## **Verse 1**

From the day you came into my life, a shadow so true  
My soulmate dog, in all that we'd do  
We ran the Colorado trails, you flew by my side  
With boundless energy, nowhere to hide

## **Chorus**

Oh, Molly, my darling, my heart aches for you  
Thirteen wonderful years, our love always grew  
Your sweet face I remember, though seasons have passed  
Our bond, like the mountains, forever will last

## **Verse 2**

At my feet while I worked, then sleeping so near  
Chasing balls in the fields, calming every fear  
My Colorado fur girl, up for adventure and play  
Always by my side, at the close of the day

## **Chorus**

Oh, Molly, my darling, my heart aches for you  
Thirteen wonderful years, our love always grew  
Your sweet face I remember, though seasons have passed  
Our bond, like the mountains, forever will last

Just your presence beside me, a comfort so deep  
No matter the journey, secrets we'd keep  
Our happiness shared, in moments so true  
The world was complete, as long as I had you

Oh, Molly, my darling, my heart aches for you  
Thirteen wonderful years, our love always grew  
Your sweet face I remember, though seasons have passed  
Our bond, like the mountains, forever will last

**Verse 4**

You shared your sweet home with siblings, a joyful, furry crew  
With Savannah, our Beagle, and Breanna, kitty too  
They cuddled and they napped, a bond that grew so deep  
And Breanna played fetch with you, precious memories to keep

**Chorus**

Oh, Molly, my darling, my heart aches for you  
Thirteen wonderful years, our love always grew  
Your sweet face I remember, though seasons have passed  
Our bond, like the mountains, forever will last

**Verse 5**

Just to have you beside me, no matter the task  
A simple contentment, a joy built to last  
You brought such a sunshine, chased shadows away  
Making every moment, a happier day

Oh, Molly, my darling, my heart aches for you  
Thirteen wonderful years, our love always grew  
Your sweet face I remember, though seasons have passed  
Our bond, like the mountains, forever will last

**Verse 6**

Through trials and shadows, you showed me the way  
A light in the darkness, each passing day  
You taught me of courage, of how to begin  
A new path before me, letting happiness in

**Chorus**
