Custom Pet Memorial Songs

Nibby's Open Road

A Tribute Song

Intro - acoustic guitar, harmonica

Verse 1

I remember morning kisses, soft and sweet
And nighttime snuggles, always a cozy treat
That deep little stare when dinner was on a plate
Just begging for a taste, sealed by loving fate
My best friend, my co-pilot, by my side
Your little face out the window, with nothing to hide
Fur blowing in the wind, a world of smells for you
Taking in every moment, fresh and new

Chorus

Oh, Nibby, my sweet girl, sixteen years went by
Beneath the same big sun, under the same big sky
You filled my every day, you made my world complete
A love so true and pure, incredibly sweet

Verse 2

When I came home from work, your joy was plain to see
Like I was the best part of your whole day, just for me
Our slow walks in the park, sniffing every single thing
Every minute with you, made my heart just sing
You chased away the shadows, and banished all the doubt
You showed me what true living was about
With you right by my side, I never felt alone
You truly made my little house a home

Chorus

Oh, Nibby, my sweet girl, sixteen years went by
Beneath the same big sun, under the same big sky

Nibby's Open Road (continued)

You filled my every day, you made my world complete
A love so true and pure, incredibly sweet

Bridge

Be free, my sweet girl, chase all the birds up high
Eat all the treats you want, beneath the endless sky
Smell all the smells you can, run with joyful glee
The sweetest little soul, forever you will be
This isn't goodbye forever, it's just until we meet
Someday again, my darling, our reunion will be sweet

Instrumental - harmonica, acoustic guitar

Final Chorus

Oh, Nibby, my sweet girl, sixteen years went by
Beneath the same big sun, under the same big sky
You filled my every day, you made my world complete
A love so true and pure, incredibly sweet

Outro - acoustic guitar fade

Now I see you free from pain, a happy hop-run through the clouds so high
Jumping over rainbows, beneath a peaceful sky
Chasing sister Tiz, stealing balls from Ollie, a playful, joyful sound
Feeling all the love you gave, forever safe and sound
And when the sun goes down, you snuggle right beside me, in my heart you stay
Until we meet again someday, my love, my light, my Nibby.

Outro - acoustic guitar fade
