# Ghost, My Sweet Sentinel

*A Tribute Song*

---

**Intro - acoustic guitar, harmonica**

**Verse 1**

The day we brought you home, a journey just begun  
Four hours on the road, beneath the morning sun  
You looked at us with eyes so full of tender grace  
And found your forever home, our love in every space  
That pitter-patter sound, our mornings woke to you  
A love that grew each day, strong, steady, and so true.

**Chorus**

Oh, Ghost, my sweet sentinel, thirteen years we knew  
A love that knew no bounds, in everything you'd do  
Our fluffy white angel, a spirit bright and bold  
A story in our hearts, a love that won't grow old.

**Verse 2**

Our morning coffee time, upon the porch we'd share  
With cuddles and soft sighs, a gentle, morning air  
The neighbors walked on by, you'd greet them with a gaze  
Amazing them with grace, through sunlit, peaceful days  
Your beauty and your love, a sight for all to see  
Unconditional and pure, just waiting there for me.

**Chorus**

Oh, Ghost, my sweet sentinel, thirteen years we knew  
A love that knew no bounds, in everything you'd do  
Our fluffy white angel, a spirit bright and bold  
A story in our hearts, a love that won't grow old.

**Verse 3**

*Ghost, My Sweet Sentinel (continued)*

A certified ATD, for twelve long, faithful years  
From USO to schools, calming away the fears  
You knew your service vest, your therapy one as well  
Connecting hearts with yours, a story you would tell  
For autistic children, for soldiers scarred inside  
Your gentle heart would open, with nowhere left to hide  
A quiet guardian, through every passing night  
Our home's sweet heartbeat, our purest, shining light.

**Chorus**

Oh, Ghost, my sweet sentinel, thirteen years we knew  
A love that knew no bounds, in everything you'd do  
Our fluffy white angel, a spirit bright and bold  
A story in our hearts, a love that won't grow old.

**Bridge**

You were the perfect partner, a therapy dog so true  
Giving love to everyone, in all that you would do  
Now go with God, sweet girl, enjoy the rest you've earned  
For loving us completely, a lesson we have learned.

**Guitar Solo - acoustic guitar, harmonica, upright bass**

**Final Chorus**

Oh, Ghost, my sweet sentinel, thirteen years we knew  
A love that knew no bounds, in everything you'd do  
Our fluffy white angel, a spirit bright and bold  
A story in our hearts, a love that won't grow old.

**Outro - acoustic guitar fade, harmonica**

Run pain free, sweet girl, guard the borders of Heaven with grace  
You're loved beyond measure, in that beautiful place  
We'll see you later, dear friend, when our journey is done  
Peaceful rest, sweet Angel, beneath an eternal sun.

*Forever in our hearts*
