Gizmo and Keiko's Gentle Whisper

A Tribute Song

Intro - piano, ukulele

Verse 1

My Gizmo, sweet shadow, you watched every step
By the window you'd wait, while my secrets you kept
Then Keiko would greet me, with soft morning plea
For her medicine and snacks, just for her and for me
My little Chihuahuas, hearts loyal and true
Always watching, always waiting, for all that I'd do
Such pure, innocent love, from souls so sincere
Chasing away every worry, calming every fear

Chorus

Oh, Gizmo and Keiko, my dearest, my own
Seventeen and sixteen years, your deep love was shown
My life isn't the same, since you both had to leave
But your gentle pure spirit, forever I'll believe

Verse 2

Those days filled with cuddles, held close in my arms
Protected from worries, safe from all harms
Your unconditional love, a light ever bright
Waiting for Momma, through morning and night
You'd talk to me softly, a language we knew
Every moment with you, precious and new
My loyal companions, a comfort so deep
Sweetest memories now, in my heart I will keep

Chorus

Oh, Gizmo and Keiko, my dearest, my own
Seventeen and sixteen years, your deep love was shown

Gizmo and Keiko's Gentle Whisper (continued)

My life isn't the same, since you both had to leave
But your gentle pure spirit, forever I'll believe

Bridge

I wish I had known, wish I could've slowed time down
Imagined you always, my babies, my crown
My life feels so different, since you went away
I pray I reach heaven, to hold you one day
Forever I'll hold you, in light that is true
My love for my darlings, Gizmo and Keiko, for you

Instrumental - cello, piano

Final Chorus

Oh, Gizmo and Keiko, my dearest, my own
Seventeen and sixteen years, your deep love was shown
My life isn't the same, since you both had to leave
But your gentle pure spirit, forever I'll believe

Outro

Now playing together, in heaven so vast
Waiting for your Momma, a love built to last
Peaceful and perfect, beneath endless skies
Until we're together, sweet rest for your eyes

Outro - piano fade

Forever in our hearts
