# Charlie's Gentle Embrace

*A Tribute Song*

---

**Intro - acoustic guitar, piano**

**Verse 1**

The first time I saw you, a little happy pup  
Your happy dance began, and filled my spirit up  
You'd run in circles, a fluffy, gentle blur  
Always right beside me, my devoted, loving fur  
A tiny shadow, you'd never stray too far  
A faithful heart, my brightest, guiding star  
A special cuddle bug, so soft against my hand  
The sweetest spirit, in all of this wide land.

**Chorus**

Oh Charlie, my sweet boy, it's been so many years  
Through laughter and through silence, calming all my fears  
Fourteen and a half seasons, a love so pure and true  
A part of every memory, always watching you.

**Verse 2**

When I came home, your tail would quickly wag  
Your happy dance again, no need for me to lag  
You'd spin around so quickly, a joyful, feathered friend  
Then settle close beside me, right until the end  
A quiet comfort, a presence ever near  
Chasing away the shadows, calming every fear  
Your gentle breath beside me, a soft and steady sound  
The safest haven, I had ever found.

**Chorus**

Oh Charlie, my sweet boy, it's been so many years  
Through laughter and through silence, calming all my fears

---

*Charlie's Gentle Embrace (continued)*

Fourteen and a half seasons, a love so pure and true  
A part of every memory, always watching you.

**Bridge**

My sweet baby boy, the bestest, loyal heart  
Though we are now for a little while apart  
Keep doing your happy dance, beyond the endless blue  
My forever bestest boy, I'll always be with you.

**Instrumental - piano, acoustic guitar**

**Final Chorus**

Oh Charlie, my sweet boy, it's been so many years  
Through laughter and through silence, calming all my fears  
Fourteen and a half seasons, a love so pure and true  
A part of every memory, always watching you.

**Outro**

Now you're running free, forever young and bright  
Wagging your tail with joy, bathed in endless light  
Watching over me, from fields of green and gold  
A story of true love, that never will grow old.

**Outro - piano fade**

*Forever in our hearts*
