

Remembering Ollie

Custom Pet Memorial Songs

Daisy's Little Light

A Tribute Song

Intro - acoustic guitar, harmonica

Verse 1

The day you came, a tiny sight
So dirty, in the fading light
A little yorkie, four-point-five pounds
The sweetest spirit ever found
All you needed was a gentle hand
A loving heart to understand
You filled our home with so much grace
A happy smile on every face

Chorus

Oh, Daisy, my sweet little friend
Fourteen beautiful years, right to the end
Your memory's a warm, bright glow
A gentle song the breezes blow
You left a paw print on my soul
Making my broken heart whole

Verse 2

When bedtime came, you knew it well
A special magic, like a spell
I'd pick you up and on the bed
Then "Where's Auntie?" you'd turn your head
So funny, filled with pure delight
You made each evening warm and bright
A tiny dancer, full of cheer
Chasing away every fear

Chorus

Daisy's Little Light (continued)

Oh, Daisy, my sweet little friend
Fourteen beautiful years, right to the end
Your memory's a warm, bright glow
A gentle song the breezes blow
You left a paw print on my soul
Making my broken heart whole

Bridge

Sometimes I still whisper low
"You want a treat?" and watch you go
Now by the pearly gates you wait
Or with my parents, sealed by fate
Getting hugs, a happy sound
The sweetest angel can be found

Harmonica Solo

Final Chorus

Oh, Daisy, my sweet little friend
Fourteen beautiful years, right to the end
Your memory's a warm, bright glow
A gentle song the breezes blow
You left a paw print on my soul
Making my broken heart whole

Outro - guitar fade

Running free, beyond the sun
My little Daisy, life well done.

Forever in our hearts
