# Ash, My Steadfast Friend

*A Tribute Song*

---

**Intro - acoustic guitar, harmonica**

**Verse 1**

I remember the first time I saw your bright eyes,  
A German Shepherd, beneath open skies.  
From that moment on, a bond started to grow,  
You were always right there, wherever I'd go.  
Your steady presence, a comfort so deep,  
You'd lie at my feet, while I would sleep.  
A shadow of loyalty, noble and true,  
My world was much brighter, all thanks to you.

**Chorus**

Oh, Ash, my steadfast friend, you were truly grand,  
Eight years we walked, paw in my hand.  
A love like no other, a bond so rare,  
Your memory lives on, floating in the air.

**Verse 2**

Through quiet mornings and long, peaceful nights,  
You filled every moment with gentle delights.  
Those precious soft cuddles, when you'd jump in my bed,  
Sweetest companion, the best ever bred.  
You taught me of patience, and joy, and belief,  
A loyal heart mending my sorrow and grief.  
Just knowing you're near, made everything right,  
You guided my path with your comforting light.

**Chorus**

Oh, Ash, my steadfast friend, you were truly grand,  
Eight years we walked, paw in my hand.

I love you, Ash, the best dog and friend, it's true,  
You came into my life exactly when I needed you.  
Thank you for everything, no more pain for your soul,  
I'll see you soon, making my spirit whole.

**Final Chorus**

Oh, Ash, my steadfast friend, you were truly grand,  
Eight years we walked, paw in my hand.  
A love like no other, a bond so rare,  
Your memory lives on, floating in the air.

**Outro**

Now you're chasing butterflies, free and so light,  
With Jesus above, in the eternal bright.  
A peaceful image, forever I'll keep,  
As you run through green fields, or gently sleep.

**Outro - guitar fade**
