# Dillon, My Heartbeat

*A Tribute Song*

---

**Intro - acoustic guitar, harmonica**

**Verse 1**

My silly, delicious, little psychopath  
A tiny man, but with a mighty path  
A sweet squishy marshmallow, full of love and grace  
You'd tear up a box, then show your precious face  
Running zoomies with Oliver, chasing shadows in the sun  
Destroying toys fiercely, your busy work was never done  
With human eyes that looked right through my soul  
You'd wiggle your slinky body, making my heart whole

**Chorus**

Oh Dillon, my heartbeat, my joy and my delight  
We had 8.5 best years, shining ever so bright  
You'd snore and breathe, sometimes cry for attention true  
My sweet little Frenchie, Momma will always miss you

**Verse 2**

The evening calm, you'd snore right in my arms  
Watching trash TV, safe from all life's harms  
Or late at night, when I'd work out with all my might  
You'd watch from the bed, my little guiding light  
On the balcony, picnics with roasted chicken we would share  
You'd show me what you wanted, beyond all compare

**Chorus**

Oh Dillon, my heartbeat, my joy and my delight  
We had 8.5 best years, shining ever so bright  
You'd snore and breathe, sometimes cry for attention true  
My sweet little Frenchie, Momma will always miss you

*Dillon, My Heartbeat (continued)*

**Bridge**

"Hi my Squish! Who's my good boy? It's you, my Dillon!"  
"Thank you for being YOU," my life you were fulfilling  
"What do you want, my Dirrys? Show me. Do you wanna go for??"  
You were the joy of my life, Momma loves you so much more

**Instrumental - acoustic guitar, harmonica, light hand percussion**

**Final Chorus**

Oh Dillon, my heartbeat, my joy and my delight  
We had 8.5 best years, shining ever so bright  
You'd snore and breathe, sometimes cry for attention true  
My sweet little Frenchie, Momma will always miss you

**Outro**

Now you're running wild and free, with a big smile on your face  
Causing chaos with Oliver, finding your own happy place  
A trouble maker, busy with toys and snacks, oh it's true  
Sleeping in boxes, forever cool and interesting, that's you

**Outro - guitar fade**

*Forever in our hearts*
