Noah's Golden Sun

A Tribute Song

Intro - acoustic guitar, ukulele

Verse 1

The day we met, a tiny friend so small,
You answered every loving call.
Each morning light, a gentle, sleepy purr,
My little Chihuahua, my furry blur.
After long days, when work was through,
Your happy wiggles saw me through.
We'd cuddle close, both night and day,
Chasing all the blues away.

Chorus

Oh, Noah, Noah, sunshine in my heart,
Fifteen cherished years, right from the start.
A love so pure, a bond so deep and true,
My world was always brighter with you.

Verse 2

Your little licks, a sweet and tender grace,
A happy greeting on my face.
Those gentle kisses, soft and pure,
A loving comfort, strong and sure.
You taught me joy in simple things,
The happiness a small love brings.
A playful spirit, bright and keen,
The best companion I had ever seen.

Chorus

Oh, Noah, Noah, sunshine in my heart,
Fifteen cherished years, right from the start.

Noah's Golden Sun (continued)

A love so pure, a bond so deep and true,
My world was always brighter with you.

Bridge

Though tears may fall, I know it's true,
My heart holds hope, I'll wait for you.
You whispered softly, clear and plain,
"We will be with each other again."

Ukulele Solo

Final Chorus

Oh, Noah, Noah, sunshine in my heart,
Fifteen cherished years, right from the start.
A love so pure, a bond so deep and true,
My world was always brighter with you.

Outro - guitar fade

Now in the sun, you rest with ease,
A gentle warmth upon the breeze.
Forever dreaming, sweet and free,
Always waiting there for me.

Forever in our hearts
