# Sookie's Joyful Patter

*A Tribute Song*

---

**Intro - ukulele, glockenspiel**

**Verse 1**

The day we met, your eyes so deep and true,  
Stared right into my soul, a love so new.  
A fluffy Maltese, a tiny, warm embrace,  
Curled up in my arms, finding your sweet place.  
Your presence filled my life, so gentle and so bright,  
Turning every moment into pure delight.  
A little angel, sent from up above,  
My heart was instantly wrapped in your pure love.

**Chorus**

Oh, Sookie, my Sookie, for fifteen precious years,  
You chased away the shadows, banished all my fears.  
Your spirit dances on, a melody so clear,  
The brightest little star, forever shining near.

**Verse 2**

I'd hear your pitter-patter, up on timber floors,  
A joyful rhythm playing, through open and closed doors.  
Then down the stairs you'd rush, a happy, furry streak,  
To greet me at the front door, just the love I'd seek.  
Your wagging tail a welcome, a happy, loving sound,  
The sweetest little companion, the best I ever found.  
Each moment spent beside you, a treasure pure and gold,  
A story of devotion, beautifully unfolded.

**Chorus**

Oh, Sookie, my Sookie, for fifteen precious years,  
You chased away the shadows, banished all my fears.

*Sookie's Joyful Patter (continued)*

Your spirit dances on, a melody so clear,  
The brightest little star, forever shining near.

**Bridge**

My Sookie La La, my luck dragon, so grand,  
My white angel, my little lady, in your hand,  
You will be forever deep within my heart, it's true,  
And I love you so deeply, in all that I do.

**Instrumental - ukulele, acoustic guitar**

**Final Chorus**

Oh, Sookie, my Sookie, for fifteen precious years,  
You chased away the shadows, banished all my fears.  
Your spirit dances on, a melody so clear,  
The brightest little star, forever shining near.

**Outro**

Now I imagine you, rolling on my bed,  
For endless belly rubs, no words are left unsaid.  
Playing with the doona demon, a joyful, playful quest,  
My sweet Sookie, finally at peaceful rest.

**Outro - ukulele fade**
