Hopper's Gentle Ballad

A Tribute Song

Intro - acoustic guitar, harmonica

Verse 1

A tiny fella, home you came that day
With freckles and pink spots, my heart led astray
So full of kisses, a soft football you'd find
Your unbridled joy, a one of a kind
Your brindle fur flashed, from velvet ears so brown
To tappy white toes, the sweetest boy in town
With sister Roxy, you'd wrestle and you'd play
And sweet Gunner learned from you, day by day

Chorus

Oh, Hopper, my love, it was six and a half years
Still a lifetime so special, even as we now shed our tears
My best boy, my shadow, my heart's guiding light
You filled every moment, morning and night
The pain of missing you still lingers on
But your spirit of love will forever live on

Verse 2

On the porch swing beside me, we'd sit and we'd share
Your many sweet cuddles, beyond all compare
Riding shotgun, you'd never say no to a treat
A drive-thru burger made your happiness complete
A bark at the mailman, then a happy dance wiggle
Your tappy toes on the stairs always brought a giggle
You'd sing with Curly when his harmonica played
Then tuck dad to bed, your nightly parade

Chorus

Hopper's Gentle Ballad (continued)

Oh, Hopper, my love, it was six and a half years
Still a lifetime so special, even as we now shed our tears
My best boy, my shadow, my heart's guiding light
You filled every moment, morning and night
The pain of missing you still lingers on
But your spirit of love will forever live on

Verse 3

My Hoppy, you loved Mama's homemade food just for you
And watched over our family, a guardian true
A sweet lap snuggler, with a comforting sigh
And for my last bite, you'd look with hopeful eye

Verse 4

In Grafton's deep snow, with Roxy you would play
And zoomies in the North Carolina yard each day
The garden hose was a favorite, a cool, refreshing drink
You munched and enjoyed lettuce more than we would think
Your squeaker toy found, you'd make it sing clear
A pivotal member, holding us all so dear
Loved when you'd snuggle your Bee and your Bug
We knew we were never alone
My Hopper, my love, you always made our house a home

Bridge

My very best boy, I miss you eternally
Each tear worth a moment, a sweet memory
Your collar by my headboard, a kiss in the night
Thank you for loving me with all of your might
Blessed by your spirit, pure love, strong and true
Please find me in dreams, until I join you

[Harmonica Solo] (harmonica melody, slow and soulful)

Final Chorus

Oh, Hopper, my love, it was six and a half years
Still a lifetime so special, even as we now shed our tears
My best boy, my shadow, my heart's guiding light
You filled every moment, morning and night
The pain of missing you still lingers on
But your spirit of love will forever live on

Outro

Now with sweet Roxy, under skies bright and warm

Hopper's Gentle Ballad (continued)

Running pain-free together, safe from all harm
Basking in sunshine, or sleeping so deep
A promise of joy that my heart will keep

Outro - guitar fade

Forever in our hearts
