Dandelion's Golden Sun

A Tribute Song

Intro - acoustic guitar, piano

Verse 1

A gentle purr, a golden hue,
My perfect boy, always true.
From the very start, the love of my life,
You chased away all sorrow and strife.

Chorus

Oh, Dandelion, my heart still aches,
Twelve golden years, for goodness sakes.
A love so pure, a bond so deep,
Sweet memories I'll always keep.

Verse 2

When the day was done, and silence fell,
We'd sit together, casting a spell.
Just you and I, a quiet grace,
A special moment, time and space.

Chorus

Oh, Dandelion, my heart still aches,
Twelve golden years, for goodness sakes.
A love so pure, a bond so deep,
Sweet memories I'll always keep.

Bridge

I whisper now, with tear-filled eyes,
"I love you forever," beneath the skies.
And miss you so much, with every beat,

Dandelion's Golden Sun (continued)

A love like yours, so bittersweet.

Instrumental - piano, cello

Final Chorus

Oh, Dandelion, my heart still aches,
Twelve golden years, for goodness sakes.

A love so pure, a bond so deep,
Sweet memories I'll always keep.

Outro

Now with peeps and Phe, running free,
In golden sunshine, wild and glee.
Across the fields, with joyful stride,
Forever in my heart, you'll softly glide.

Outro - guitar fade
