Morris's Gentle Whisper

A Tribute Song

Intro - acoustic guitar, piano

Verse 1

I remember when you came to me, a joy I hadn't known
With forceful cuddles, you'd demand my time, making me your own
You'd wiggle and you'd nuzzle, a warm and furry friend
And with that loving mischief, my laughter would extend

Chorus

Oh, Morris, my dear friend, a bond so true and deep
For seven and a half years, your memory I will keep
You locked your eyes with mine, a promise never missed
The sweetest, gentlest spirit, forever fondly kissed

Verse 2

Our special spot within the park, where we'd just sit and be
Contemplating life's big moments, just you and happy me
You'd run as fast as lightning, to catch that flying ball
Then jump so high and miss it, still giving it your all
When I had no energy, you'd bring me sticks to break
Keeping me in the present, for goodness gracious sake

Chorus

Oh, Morris, my dear friend, a bond so true and deep
For seven and a half years, your memory I will keep
You locked your eyes with mine, a promise never missed
The sweetest, gentlest spirit, forever fondly kissed

Bridge

"Hey bub...we go to bed? Let's go to bed..." I'd softly say

Morris's Gentle Whisper (continued)

That nightly whisper, bringing peace at the close of every day
Those words a loving comfort, as we settled in so near
A final gentle moment, holding everything so dear

Instrumental - cello, piano

Final Chorus

Oh, Morris, my dear friend, a bond so true and deep
For seven and a half years, your memory I will keep
You locked your eyes with mine, a promise never missed
The sweetest, gentlest spirit, forever fondly kissed

Outro

You're running free in our park now, sniffing, playing with such glee
I'm right here watching every move, my love surrounding thee
With so much pride and adoration, a love that won't give way
Dream on, my sweet boy, dream on until our coming day

Outro - guitar fade

Forever in our hearts
