Zeke's Midnight Glow

A Tribute Song

Intro - acoustic guitar, harmonica

Verse 1

Seventeen years ago, a little pup so small
With floppy ears and curious eyes, he answered every call
I remember clearly, that very first sweet sight
Poking his head through the doorway, always checking if I was alright
You'd sniff around and find me, a loyal friend so true
My little Cocker Spaniel, always searching for me, you knew

Chorus

Oh, Zeke, my dear sweet Zeke, seventeen years by my side
Through every joy and every tear, you were my faithful guide
A shadow and a comfort, a love that won't fade out
My heart still feels your presence, without a single doubt

Verse 2

When darkness fell each evening, and the world grew still and deep
We'd stay up 'til the midnight hour, secrets we would keep
You'd lie there at my feet, a silent, cozy friend
Those quiet moments linger, until the very end
Just the two of us together, beneath the moon's soft gleam
Living out a gentle, happy, midnight dream

Chorus

Oh, Zeke, my dear sweet Zeke, seventeen years by my side
Through every joy and every tear, you were my faithful guide
A shadow and a comfort, a love that won't fade out
My heart still feels your presence, without a single doubt

Bridge

Zeke's Midnight Glow (continued)

I love you for always, my lil homie, you were the best in the world to me
Now go chase some rabbits, let your spirit fly free
Your gentle soul, your wagging tail, a memory I hold so tight
You taught me so much about love, you filled my life with light

Harmonica Solo

Final Chorus

Oh, Zeke, my dear sweet Zeke, seventeen years by my side
Through every joy and every tear, you were my faithful guide
A shadow and a comfort, a love that won't fade out
My heart still feels your presence, without a single doubt

Outro

Now you're running wild and happy, no fences in your way
Eating all the french fries you can woof down, every single day
Free from pain and peaceful, beneath a golden sun
My sweet companion, your journey's just begun

Outro - acoustic guitar fade
