Halo's Golden Hour

A Tribute Song

Intro - ukulele, upright bass

Verse 1

A little fluffball, light and free
Right from the start, for all to see
An independent spirit, bright and bold
A happy-go-lucky story to unfold.
A curious gaze, a playful stride
Always with joy deep down inside
You filled our days with happy sounds
Exploring all the world around.

Chorus

Oh, Halo, you bright star, a comfort true
For sixteen sweet years, our love grew
Every moment a gift, a joy to embrace
Leaving sunshine in your special place.

Verse 2

When five o'clock would roll around
A special knowing could be found
Your happy dance, a wagging tail
A joyful greeting, without fail.
You'd wait right there, a trusted friend
Our precious time would never end
A furry shadow, always near
Chasing away every single fear.

Chorus

Oh, Halo, you bright star, a comfort true
For sixteen sweet years, our love grew

Halo's Golden Hour (continued)

Every moment a gift, a joy to embrace
Leaving sunshine in your special place.

Bridge

They say you were strong, and smart too
Every day, something new you'd do
A wise old soul, with eyes so bright
Filling our world with pure delight.
Your spirit shines, a gentle glow
The dearest love we used to know.

Instrumental - glockenspiel, ukulele

Final Chorus

Oh, Halo, you bright star, a comfort true
For sixteen sweet years, our love grew
Every moment a gift, a joy to embrace
Leaving sunshine in your special place.

Outro

Now you're here, relaxing by my side
In gentle dreams, where spirits glide
Running free, in fields of gold
A precious story, forever told.

Outro - ukulele fade
