# Gidget's Gentle Snore

*A Tribute Song*

---

**Intro - muted piano, harp**

**Verse 1**

I remember the first soft sound I knew,  
A gentle rumble, faithful and true.  
Each night beside me, a comforting drone,  
My loyal Gidget, never alone.  
A Bull Arab heart, strong and so deep,  
Secrets you'd guard while the world fell asleep.  
Your presence a warmth, steady and mild,  
My cherished companion, my sweet, peaceful child.

**Chorus**

Oh, Gidget, my sweet friend, my brave, loving soul,  
You made my fractured world beautifully whole.  
Twelve years you walked by my side, through sun and through rain,  
And though I miss you now, love still eases the pain.

**Verse 2**

Just five weeks old, from a cruel, bitter start,  
You found your safe haven, a home in my heart.  
Through hell and through back, we faced every storm,  
When broken you lay, I kept you so warm.  
Seventeen thousand, a price I would pay,  
To see you stand strong, to brighten your day.  
On cold floor we slept, just you and just me,  
Until you could climb, wild and free.

**Chorus**

Oh, Gidget, my sweet friend, my brave, loving soul,  
You made my fractured world beautifully whole.

*Gidget's Gentle Shore (continued)*

Twelve years you walked by my side, through sun and through rain,  
And though I miss you now, love still eases the pain.

**Bridge**

My final whisper, a soft, tearful plea,  
"Goodnight sweet dreams, God bless," whispered I to thee.  
"I love you," my darling, spoken with grace,  
Carved in my heart, an eternal embrace.

**Instrumental - acoustic guitar, synth pad**

**Final Chorus**

Oh, Gidget, my sweet friend, my brave, loving soul,  
You made my fractured world beautifully whole.  
Twelve years you walked by my side, through sun and through rain,  
And though I miss you now, love still eases the pain.

**Outro**

Now you're with your sisters, in Heaven's bright space,  
Monique teaching you to fly with such grace.  
Swimming so hard, on wings you can soar,  
Running free, peaceful, forevermore.

**Outro - piano fade**

*Forever in our hearts*
