Lolita's Gentle Kiss

A Tribute Song

Intro - harp, piano

Verse 1

I still recall that first sweet day
A tiny princess came to stay
Your gentle kisses, soft and true
A loving soul, in all you'd do
With graceful steps, a joyful sight
You filled my world with pure delight
My baby's heart, so pure and deep
A precious promise I would keep

Chorus

Oh, Lolita, my sweet princess dear
You banished every single fear
For sixteen years, our hearts entwined
The truest love I'll ever find

Verse 2

Each morning light, a gentle start
Waking up close, forever a part
Then nightly cuddles, warm and tight
You filled my darkness with your light
A knowing glance, a happy sigh
Beneath the stars, we watched them fly
Your spirit bright, a constant guide
Always right here by my side

Chorus

Oh, Lolita, my sweet princess dear
You banished every single fear

Lolita's Gentle Kiss (continued)

For sixteen years, our hearts entwined
The truest love I'll ever find

Bridge

Thank you, my love, for strength so true
And unconditional love from you
A bond unbreakable, a gift from above
My heart forever holds your love

Instrumental - strings, piano

Final Chorus

Oh, Lolita, my sweet princess dear
You banished every single fear
For sixteen years, our hearts entwined
The truest love I'll ever find

Outro

Now you're running free, my angel sweet
Where greenest fields and sunshine meet
In peaceful dreams, you softly sleep
The memories I will always keep

Outro - piano fade

Forever in our hearts
