Taco Bell's Endless Sun

A Tribute Song

Intro

Acoustic guitar, ukulele

Verse 1

From the moment we first met, a spark so bright and true
A tiny heart, a loyal soul, always ready to go with you
Riding in the shopping cart, a queen upon her throne
My little Chihuahua, never feeling quite alone

Chorus

Oh, Taco Bell, my sweet companion, seventeen years by my side
A love like ours, a guiding star, where joy could always hide
You taught me strength, you showed me grace, a spirit light and free
Taco Bell, forever shining bright, a part of you in me

Verse 2

In my office, day by day, you kept your sleepy watch
A silent presence, warm and near, a loving, gentle touch
Then out into the sunny park, we'd walk where wildflowers grew
Each happy step, a memory, shared only by us two

Chorus

Oh, Taco Bell, my sweet companion, seventeen years by my side
A love like ours, a guiding star, where joy could always hide
You taught me strength, you showed me grace, a spirit light and free
Taco Bell, forever shining bright, a part of you in me

Bridge

My baby girl, the very best, you filled my world with light
I miss you dearly, every day, both morning, noon, and night

Taco Bell's Endless Sun (continued)

My heart holds tight, this endless love, I know we'll meet again
Until that day, I'll cherish you, my truest, dearest friend

Instrumental

Ukulele solo, light percussion

Final Chorus

Oh, Taco Bell, my sweet companion, seventeen years by my side
A love like ours, a guiding star, where joy could always hide
You taught me strength, you showed me grace, a spirit light and free
Taco Bell, forever shining bright, a part of you in me

Outro

Now running free in endless grass, beneath the summer sky
Napping peacefully in sun, where gentle breezes sigh
With every breath, no pain is felt, just pure and joyful grace
Taco Bell, forever loved, in your happy, special place

Outro - acoustic guitar fade

Forever in our hearts
