Ginger's Gentle Morning

A Tribute Song

Intro - acoustic guitar, ukulele

Verse 1

From the moment you came home, a loyal heart I found
A little Lab, a shadow sweet, on every single ground
You followed me everywhere, a faithful, furry friend
On every walk and every chore, until the very end
A gentle nudge, a happy bark, a spirit pure and true
My world felt brighter, full of grace, because of you

Chorus

Oh, Ginger, my sweet Ginger, nine wonderful years with me
A love so pure, a bond so strong, for all the world to see
You brought the sunshine to my days, a comfort to my soul
Now in my heart, you'll always play, forever making me whole

Verse 2

You were my clock, my morning light, a rhythm to my day
When to get up, when to go out, in your own loving way
When hungry, a soft nudge reminded, dinner time was near
And when it was time for bed, you'd chase away all fear
Through every moment, big and small, you guided me with grace
A steady, beating, loving pulse, in time and light and space

Chorus

Oh, Ginger, my sweet Ginger, nine wonderful years with me
A love so pure, a bond so strong, for all the world to see
You brought the sunshine to my days, a comfort to my soul
Now in my heart, you'll always play, forever making me whole

Bridge

Ginger's Gentle Morning (continued)

I love you, my dear Ginger, more than words can ever say
And know we will be together again, beyond this earthly day
A promise whispered to the breeze, a comfort to my heart
No matter where our paths may lead, we're never truly apart

Instrumental - ukulele, light drums

Final Chorus

Oh, Ginger, my sweet Ginger, nine wonderful years with me
A love so pure, a bond so strong, for all the world to see
You brought the sunshine to my days, a comfort to my soul
Now in my heart, you'll always play, forever making me whole

Outro

Now playing with all my other dogs, across the rainbow's gleam
Running free, a happy spirit, in a peaceful, joyful dream

Outro - guitar fade

Forever in our hearts
