Ginger's Golden Hour

A Tribute Song

Intro - acoustic guitar, piano

Verse 1

A golden shadow, always near
Chasing away every doubt and fear
From the first day, you found your place
A Lab's true spirit, full of grace
You'd follow close, a gentle stride
Forever walking by my side
Through every room, no matter where
Your loving presence filled the air.

Chorus

Oh, Ginger, my sweet girl, my friend
Nine golden years that truly transcend
A love like yours, a shining star
No matter where you are.

Verse 2

You were my clock, so true and keen
The best routine I'd ever seen
A gentle nudge to greet the sun
To know exactly when to run
For morning walks, for evening treats
Your happy schedule couldn't be beat
For every meal, for sleepy sighs
Reflected deeply in your eyes.

Chorus

Oh, Ginger, my sweet girl, my friend
Nine golden years that truly transcend

Ginger's Golden Hour (continued)

A love like yours, a shining star
No matter where you are.

Bridge

I whispered softly, "I love you so"
A promise made, for all to know
We'll be together, again, someday
When shadows lift and skies are gray.

Mandolin Solo

Final Chorus

Oh, Ginger, my sweet girl, my friend
Nine golden years that truly transcend
A love like yours, a shining star
No matter where you are.

Outro

Now running free, beyond the sun
With all the others, play begun
Across the bridge, a joyous sound
Where endless happiness is found
My beautiful Ginger, bright and bold.

Outro - guitar fade
