Custom Pet Memorial Songs

Sadie May's Gentle Snore

A Tribute Song

Intro - piano, cello

Verse 1

I remember your gentle snore, a soft breath by my side
Tucked so snug beneath the blankets, nowhere left to hide
You watched over our little world, with barks at every sound
A loving sister to your pack, the dearest dog around.

Chorus

Oh, Sadie May, our faithful friend, for ten sweet years and more
A quiet house where joy once reigned, we miss you to the core
Your paw prints on our tender hearts, a love that won't depart
You're sleeping now, but in our dreams, you're always a part.

Verse 2

Our afternoon naps were golden, warm against my chest
Your comforting presence always, putting us to rest
With my wife on side-by-side rides, the wind through fur so free
Each moment shared, a precious gift, a loving memory.

Chorus

Oh, Sadie May, our faithful friend, for ten sweet years and more
A quiet house where joy once reigned, we miss you to the core
Your paw prints on our tender hearts, a love that won't depart
You're sleeping now, but in our dreams, you're always a part.

Bridge

I love you, Sadie May, you left us far too soon
The silence in the house now, beneath the fading moon
I know you're looking down on us, with siblings by your side

Sadie May's Gentle Snore (continued)

Until we meet at heaven's gate, where love will be our guide.

Instrumental - piano, acoustic guitar

Final Chorus

Oh, Sadie May, our faithful friend, for ten sweet years and more
A quiet house where joy once reigned, we miss you to the core
Your paw prints on our tender hearts, a love that won't depart
You're sleeping now, but in our dreams, you're always a part.

Outro

Now running free on Rainbow Bridge, with brothers and sisters bright
No more pain, just endless play, in warm and golden light
You're chasing joy with all the pups, a happy, peaceful dream
Our sweet Sadie May, forever part of love's eternal stream.

Outro - piano fade

Forever in our hearts
