

Remembering Ollie

Custom Pet Memorial Songs

Scout's Forever Shore

A Tribute Song

Intro - acoustic guitar, harmonica

Verse 1

From the moment that you came into my life,
You chased away all sadness and all strife.
A loyal Collie, with eyes so bright and keen,
My little shadow, the best friend I'd ever seen.
Thirteen wonderful years, a bond so deep and true,
My world was always brighter, Scout, because of you.
You followed every step, near or far,
My guiding light, my lucky star.

Chorus

Oh, Scout, my sweet Scout, it breaks my heart to say goodbye,
Thirteen wonderful years, they seemed to simply fly.
A loyal heart, a spirit free and bold,
A story in my memories, more precious than gold.

Verse 2

I still recall those greetings at the door,
A happy pounce, a toy across the floor.
Your tail would wag, a joyful, blurry sight,
Filling every corner with your light.
You hated being alone, my constant, furry friend,
Right by my side until the very end.
Each playful bark, a melody I crave,
The sweetest moments that my memory will save.

Chorus

Oh, Scout, my sweet Scout, it breaks my heart to say goodbye,
Thirteen wonderful years, they seemed to simply fly.

Scout's Forever Shore (continued)

A loyal heart, a spirit free and bold,
A story in my memories, more precious than gold.

Bridge

Please don't ever forget me, my love, I pray,
I love you forever, come what may.
I'll see you and Bella, as soon as I can, wait for me,
You changed me forever, eternally.

Instrumental - banjo, acoustic guitar

Final Chorus

Oh, Scout, my sweet Scout, it breaks my heart to say goodbye,
Thirteen wonderful years, they seemed to simply fly.
A loyal heart, a spirit free and bold,
A story in my memories, more precious than gold.

Outro

Now you're running with Bella, free and grand,
In tall green grasses or the golden sand.
At the seashore, playing in the waves,
No longer alone, a love that always saves.
Cuddling close at night, beneath the moon's soft gleam,
Living out a peaceful, happy dream.

Outro - acoustic guitar fade

Forever in our hearts
