Verse 1

I remember the day you first came to stay,
A gentle soul, you lit up my way.
With human eyes, so kind and so deep,
Secrets of my heart, you promised to keep.
A fluffy companion, always by my side,
My protector, my joy, my trusted guide.
Your love was a comfort, steady and true,
A bond like no other, just me and you.

Chorus

Oh, Rocky, my friend, almost thirteen years strong,
You're the melody in my heart's loving song.
Though you've crossed the rainbow, so far away,
Your spirit shines bright, every single day.

Verse 2

I recall those evenings, so cozy and calm,
You'd nuzzle my side, safe from all harm.
As we watched the TV, your head on my lap,
Lost in the moment, caught in love's trap.
A quiet companion, content just to be,

Rocky's Loving Song (continued)

Your gentle presence, always with me.
Those sweet little nuzzles, a comfort so deep,
Treasured memories my heart will forever keep.

Chorus

Oh, Rocky, my friend, almost thirteen years strong,
You're the melody in my heart's loving song.
Though you've crossed the rainbow, so far away,
Your spirit shines bright, every single day.

Verse 3

Beyond just cuddles, your knowing gaze held sway,
Understanding feelings, come what may.
A silent listener, wise and ever true,
My unspoken thoughts were shared with you.
Each room felt brighter, with you close at hand,
The best companion, in all of the land.
Your steady presence, a comfort profound,
The happiest moments, with you around.

Verse 4

One cold December afternoon, the roads were clear and bright,
To Hamilton we drove, guided by God's light.
You cherished dear Dani, from the very first day,
Road trips and snuggles, a sweet loving way.
Protector of niblets, Taka, Vicky, Nickels, and Nick,
Your love for each family member, it truly would stick.
With human eyes and stocky frame, comfort you gave,
For love and for treats, like chicken and watermelon, you'd crave.

Bridge

I love you more than words could ever convey,
And I miss you, dear Rocky, every single day.
Not a minute goes by without thought or a smile,
Just knowing I had you for a little while.
Until we meet again, my sweet, furry friend,
My love for you truly will never end.

Guitar Solo - acoustic guitar, mandolin

Final Chorus

Oh, Rocky, my friend, almost thirteen years strong,
You're the melody in my heart's loving song.
Though you've crossed the rainbow, so far away,

Rocky's Loving Song (continued)

Your spirit shines bright, every single day.

Outro

Now you're running free, in soft green fields so wide,
Eating watermelon, with nowhere to hide.
No more pain, no more needles to fear,
Just endless joy, Rocky, always near.
Rest easy, my sweet boy, your journey is done,
Under the warmth of the eternal sun.

Outro - guitar fade
