# Pretzel's Warm Embrace

*A Tribute Song*

---

**Intro - acoustic guitar, soft banjo**

**Verse 1**

Four months old, a stray on the street  
A ginger and white, oh so sweet  
You walked into my life that day  
And stole my heart in every way

You were my everything, my heart and soul  
Making my broken spirit whole  
A little cat, so full of grace  
Finding your forever happy place

**Chorus**

Oh, Pretzel, my dear, my sweet friend  
Thirteen long years, right to the end  
Your love was a light, so steady and true  
A piece of my heart will always miss you

**Verse 2**

On the floor, our "mush" sessions would start  
You on your back, playing your part  
Cuddles and kisses, whispers so low  
Sweet conversations, watching our love grow

Every morning, every night  
You filled my world with pure delight  
A gentle paw, a purring sound  
The truest love I ever found

**Chorus**

Oh, Pretzel, my dear, my sweet friend

*Pretzel's Warm Embrace (continued)*

Thirteen long years, right to the end  
Your love was a light, so steady and true  
A piece of my heart will always miss you

**Verse 3**

For four long months, I never left your side  
My every waking moment, nowhere to hide  
I poured my heart into your healing, dear  
Wished I could keep you always, ever near

If given time, I'd mend you, free from pain  
And keep you safe, through sunshine and through rain  
You took a piece of me when you had to go  
A love so deep, my Pretzel, you should know

**Bridge**

I whispered "It's ok, baby, you can let go"  
My everything, so you would know  
I'll love you forever, through eternity  
A bond like ours, wild and free

**Mandolin Solo**

**Final Chorus**

Oh, Pretzel, my dear, my sweet friend  
Thirteen long years, right to the end  
Your love was a light, so steady and true  
A piece of my heart will always miss you

**Outro**

Now with my dad, beyond the blue sky  
I feel you watching, a tear in my eye  
Run free and happy, no sorrow, no pain  
Until we meet, my sweet Pretzel, again

**Acoustic guitar fade**

*Forever in our hearts*
