Tulli, My Shining Star

A Tribute Song

Intro - grand piano, strings

Verse 1

First time I saw you, a gentle, knowing gaze
Your beautiful eyes, through sunlit, happy days
A little shadow, always close to me
Just searching for my presence, where I would be
Your cream fur shining, a promise in your stare
A heart that mirrored mine, beyond compare
You were my constant, my steadfast, loyal friend
A bond so pure and true, until the very end

Chorus

Tulli, my Tulli, my heart, my shining star
Almost sixteen years, no matter how far
My little shadow, always by my side
In your loving presence, I could always confide

Verse 2

Every single minute, a treasure we would find
Leaving precious memories etched deep in my mind
So cheeky and smart, with mischief in your gleam
You lived out every moment, like a beautiful dream
No day was ever dull, with you there by my hand
The smartest, truest spirit across the land
My constant companion, a love so deep and strong
You showed me where my heart truly belonged

Chorus

Tulli, my Tulli, my heart, my shining star
Almost sixteen years, no matter how far

Tulli, My Shining Star (continued)

My little shadow, always by my side
In your loving presence, I could always confide

Bridge

The last breath taken, a silence in the air
I whispered words of love, beyond all despair
Be brave, run free now, my sweet and gentle soul
I love you every day, making my heart whole

Instrumental - strings, piano

Final Chorus

Tulli, my Tulli, my heart, my shining star
Almost sixteen years, no matter how far
My little shadow, always by my side
In your loving presence, I could always confide

Outro

Now running free, tail wagging, in fields of light
Looking at me over your shoulder, so bright
A perfect vision, serene and ever blessed
My dearest Tulli, now forever at rest

Outro - strings fade

Forever in our hearts
