Venus, My Guiding Star

A Tribute Song

Intro - piano, synth pads

Verse 1

You came to us, a tiny Yorkie dear,
Chasing away every doubt and fear.
Our Goddess of Love, a name so true,
Bringing healing and joy in all you'd do.
A poster dog for hope, so brave and bright,
Shining for Paws Parade with all your might.
You taught us lessons, pure and deep,
Promises of love you'd always keep.

Chorus

Oh Venus, our sweet girl, our guiding star,
Twelve years we walked, no matter how far.
Your gentle spirit, a love so grand,
Forever etched within our heart's soft sand.

Verse 2

The morning sun would often climb so high,
Before your sleepy self would open an eye.
But when the breakfast bowl called out your name,
You'd wake us gently, playing your sweet game.
For treats and welcomes, you were always keen,
A happy greeting, the best we'd ever seen.
Like Frankie Avalon's song, a star you'd shine,
A melody of love, forever truly mine.

Chorus

Oh Venus, our sweet girl, our guiding star,
Twelve years we walked, no matter how far.

Venus, My Guiding Star (continued)

Your gentle spirit, a love so grand,
Forever etched within our heart's soft sand.

Bridge

We love you forever, and miss you so dear,
A bond unbroken, year after year.
We know we will see you, beyond the bright sun,
Meet us at the light, when our journey is done.

Instrumental - harp, piano

Final Chorus

Oh Venus, our sweet girl, our guiding star,
Twelve years we walked, no matter how far.
Your gentle spirit, a love so grand,
Forever etched within our heart's soft sand.

Outro

Now you run free in fields of light,
With Chyna, Gidget, and PJ, pure and bright.
Snuggled with Jesus, Grandma, Linda, Joe too,
Resting peacefully, our sweet Venus, with you.

Outro - piano fade

Forever in our hearts
