Verse 1

I remember when I'd reach to find your lead
You'd start to spin with joy, a happy, little deed
Through all my bad days, your sweet love would shine
You kept me company, a loyal friend of mine

Chorus

Oh, Isaac, my dear heart, a love so pure and true
For thirteen wonderful years, my life was bright with you
A tiny shadow, always by my side
You taught me joy and peace, where comfort could reside

Verse 2

Our morning walks together, a cherished daily start
And gentle bedtime cuddles, etched within my heart
Your playful spirit, a comfort in the night
You filled my lonely moments with so much pure delight

Chorus

Oh, Isaac, my dear heart, a love so pure and true
For thirteen wonderful years, my life was bright with you
A tiny shadow, always by my side

Isaac's Waiting Sky (continued)

You taught me joy and peace, where comfort could reside

Verse 3

The day we met, we knew it from the start
We rescued one another, a love deep in each heart
You'd chase your ball with laughter, from room to room you'd race
My dearest bubba, bringing smiles to every space

Bridge

You were the best bubba I ever had, it's true
And though I miss you deeply, I know we'll be together anew
No more pain or struggle, just freedom in the air
My sweet little Chiweenie, beyond all earthly care

Instrumental - cello solo, strings swell

Final Chorus

Oh, Isaac, my dear heart, a love so pure and true
For thirteen wonderful years, my life was bright with you
A tiny shadow, always by my side
You taught me joy and peace, where comfort could reside

Outro

Now you're running, jumping, in heaven's golden light
Waiting for me there, with all your joyous might
No more pain, just peace, beneath a boundless sky
Until we meet again, my sweet boy, you'll never truly die

Outro - strings fade

Forever in our hearts
