Sadie's Green Ride

A Tribute Song

Intro - acoustic guitar, ukulele

Verse 1

Fourteen years ago, a tiny face
A loving heart in a special space
Part pug, part shih tzu, part bulldog might
You clung to us with all your light

Chorus

Oh, Sadie, our sweet girl, for fourteen wonderful years
You filled our lives, banished all our fears
Now you're free to roam, beneath skies so wide
On Sadie's green ride, with joy as your guide

Verse 2

You loved us so much, it shone in your eyes
A bond so pure, beneath all skies
Every day with you was a sweet delight
Making every moment feel so bright

Chorus

Oh, Sadie, our sweet girl, for fourteen wonderful years
You filled our lives, banished all our fears
Now you're free to roam, beneath skies so wide
On Sadie's green ride, with joy as your guide

Verse 3

She'd watch her Mom with patient gaze
While cooking in those kitchen days
Just waiting for a gentle treat

Sadie's Green Ride (continued)

A moment shared, so soft and sweet

Chorus

Oh, Sadie, our sweet girl, for fourteen wonderful years
You filled our lives, banished all our fears
Now you're free to roam, beneath skies so wide
On Sadie's green ride, with joy as your guide

Bridge

We whisper now, with love in our voice
No longer in pain, you can now rejoice
Our dear sweet Sadie, our hearts hold you near
We'll carry your spirit, year after year

Instrumental - ukulele solo, acoustic guitar

Final Chorus

Oh, Sadie, our sweet girl, for fourteen wonderful years
You filled our lives, banished all our fears
Now you're free to roam, beneath skies so wide
On Sadie's green ride, with joy as your guide

Outro - acoustic guitar fade

Walking among the greenery, long rides were your joy
A peaceful journey now, our sweet little toy.

Forever in our hearts
