August's Heavenly Rest

A Tribute Song

Intro - piano, acoustic guitar

Verse 1

I remember the day, on shores far away
A doghouse on Fidji, where my heart would stay
Your eyes, so inviting, a gentle soft gaze
Began our sweet journey through sun-dappled days

Chorus

Oh, August, my darling, across years we flew
For five happy seasons, my love stayed with you
Your spirit a beacon, so bright and so free
A cherished companion, forever with me

Verse 2

The joy of our walks, a delightful embrace
With nimble paws ready, you'd set such a pace
A quick flash of movement, a twitch of your nose
Digging for mice where the tall grass now grows

Chorus

Oh, August, my darling, across years we flew
For five happy seasons, my love stayed with you
Your spirit a beacon, so bright and so free
A cherished companion, forever with me

Verse 3

A gentle sweet spirit, a Lady so true
From past pains you travelled, to start life anew
With love and with laughter, your days became bright

August's Heavenly Rest (continued)

My precious soulmate, my guiding starlight

Bridge

My sweet August, I love you, my heart calls your name
From heaven you came, a celestial flame
A gift from above, a blessing so true
My beautiful angel, I'll always miss you

Instrumental - piano, strings

Final Chorus

Oh, August, my darling, across years we flew
For five happy seasons, my love stayed with you
Your spirit a beacon, so bright and so free
A cherished companion, forever with me

Outro

Now on a soft cloud, you peacefully rest
Watching me gently, forever blessed
A guardian angel, so loving and kind
Your sweet, gentle spirit, forever entwined

Forever in our hearts
