Cleo's Sunset Run

A Tribute Song

Intro

acoustic guitar, harmonica

Verse 1

The morning sun would gently creep
And find you nestled in your sleep
Right on your side, so close to mine
A loyal heart, a gentle sign
An All American, through and through
My world was always better with you
Waking beside you, starting the day
Chasing the shadows, come what may

Chorus

Oh, Cleo, our sweet girl, so true
Our love for you will always pursue
Six years felt far too short to hold
A story in our hearts, bravely told
You left paw prints, deep and wide
Forever walking by our side

Verse 2

We'd watch the day turn into night
Bathing in the fading light
The colors changed across the sky
As we sat close, just you and I
Your spirit bright, your gaze so keen
The best companion we had seen
Through every season, calm or storm
You kept our loving household warm

Cleo's Sunset Run (continued)

Chorus

Oh, Cleo, our sweet girl, so true
Our love for you will always pursue
Six years felt far too short to hold
A story in our hearts, bravely told
You left paw prints, deep and wide
Forever walking by our side

Bridge

You showed us grace, a powerful stand
A loving soul across the land
Thanks for showing us what persistence, strength
And unconditional love can conquer at length

Instrumental

harmonica, acoustic guitar

Final Chorus

Oh, Cleo, our sweet girl, so true
Our love for you will always pursue
Six years felt far too short to hold
A story in our hearts, bravely told
You left paw prints, deep and wide
Forever walking by our side

Outro

Now you are with your brother, Tony, running free
Playing your hardest, for all the world to see
Escaping wherever your hearts desire, a full run
Until we meet again, beneath the setting sun.

acoustic guitar fade

Forever in our hearts
