Rugby's Joyful Steps

A Tribute Song

Intro - acoustic guitar, ukulele

Verse 1

From the moment that we met, your gentle soul I knew
A loyal Ori Pei, a spirit pure and true
That special look in your eyes, whenever I would speak
A silent understanding, a bond we didn't seek

Chorus

Oh, Rugby, dear Rugby, you filled our lives with light
For five and a half wonderful years, you made everything so bright
Though sadness clouds our vision, and tears begin to fall
Your joyful spirit dances, answering love's sweet call

Verse 2

Every single step I took, you were right by my side
A little faithful shadow, nowhere left to hide
From morning's first awakening, until the day was done
Your quiet presence truly, was everything, my little one

Chorus

Oh, Rugby, dear Rugby, you filled our lives with light
For five and a half wonderful years, you made everything so bright
Though sadness clouds our vision, and tears begin to fall
Your joyful spirit dances, answering love's sweet call

Bridge

I miss you so much, my sweet girl, each passing day I find
A hollow space you left behind, a special, loving kind
I wish we could've had more time, for laughter, joy, and play

Rugby's Joyful Steps (continued)

But memories will sustain us, through every single day

Instrumental - ukulele solo

Final Chorus

Oh, Rugby, dear Rugby, you filled our lives with light
For five and a half wonderful years, you made everything so bright
Though sadness clouds our vision, and tears begin to fall
Your joyful spirit dances, answering love's sweet call

Outro

Now you've found your peace, sweet girl, with Mr. Bear so near
Running free in sunlit fields, banishing all fear
Rest easy, precious Rugby, our love will never cease
A heart so full of sunshine, now truly found its peace

Outro - acoustic guitar fade

Forever in our hearts
