Cosmo's Endless Sky

A Tribute Song

Intro - piano, cello

Verse 1

The click-clack of paws upon the floor,
My little shadow, always at the door.
You waited daily, a welcome sight,
My world, my everything, my guiding light.
You stood beside me through the darkest days,
Through unconditional love in countless ways.
A pure heart beating, strong and true,
My soul connected, always with you.

Chorus

Oh, Cosmo, my dear, 15 and a half long years,
You wiped away my silent tears.
The best of my life, a bond so deep,
Promises of forever, my heart will keep.

Verse 2

Our special moments, just you and I,
Beneath the open, endless sky.
Lake swimming days, and parkland trails,
My heart would smile, through sunshine and gales.
Your happy spirit, vibrant and bold,
A story precious, more than pure gold.
I miss those moments, more than words can say,
Wishing for just one more yesterday.

Chorus

Oh, Cosmo, my dear, 15 and a half long years,
You wiped away my silent tears.

Cosmo's Endless Sky (continued)

The best of my life, a bond so deep,
Promises of forever, my heart will keep.

Verse 3

Muskoka trails, our adventures bright,
Then lost we felt, fearing the coming night.
But set you free, our hero, bold and true,
You led us home, we followed only you.
My little guy, you filled our hearts with pride,
With boundless love, always by our side.

Bridge

I love you, miss you more than life itself, it's true,
A perfect companion, my best friend, that was you.
My little angel, I'll never forget your grace,
Until we meet again in that eternal space.
You're in my heart, always and forever, deep inside,
And say hello to Nonno, walking by his side.

Instrumental - violins, acoustic guitar

Final Chorus

Oh, Cosmo, my dear, 15 and a half long years,
You wiped away my silent tears.
The best of my life, a bond so deep,
Promises of forever, my heart will keep.

Outro - piano, strings fade

Now running free, with no more pain to find,
Swimming in waters, leaving sorrow behind.
Eating treats, by Nonno's gentle hand,
A peaceful angel, in that promised land.
My beloved Cosmo, forever you roam.

Forever in our hearts
