# Kuma's Gentle Giant

*A Tribute Song*

---

## Intro - piano, strings

### Verse 1

In quiet moments, I still feel you near,  
My loyal Kuma, banishing all fear.  
A German Shepherd, strong and true,  
My soul dog always, me and you.  
I remember your love lean, a comfort so deep,  
While close beside me, secrets we would keep.  
Through every season, a constant, faithful guide,  
Always, always right by my side.

### Chorus

Oh, Kuma, my sweet boy, nine and a half years we had,  
You taught my heart to love in such a tender way.  
A gentle giant, a spirit bright and bold,  
A story in my heart, more precious than pure gold.

### Verse 2

When the day was done, and I'd walk through the door,  
I'd hear your happy tail banging on the wall and floor.  
With wagging body, a greeting full of glee,  
Your special toy of the day, waiting there for me.  
So full of joy, a boundless, happy craze,  
Through all the moments of our treasured days.  
You'd jump and spin, a dance of pure delight,  
Turning every evening into shining light.

### Chorus

Oh, Kuma, my sweet boy, nine and a half years we had,  
You taught my heart to love in such a tender way.

*Kuma's Gentle Giant (continued)*

A gentle giant, a spirit bright and bold,  
A story in my heart, more precious than pure gold.

**Bridge**

Though silence echoes where your paws once played,  
My love for you will never fade.  
Me and you forever, bestie, I truly know,  
I love you, Kuma, more than words can show.

**Instrumental - cello solo**

**Final Chorus**

Oh, Kuma, my sweet boy, nine and a half years we had,  
You taught my heart to love in such a tender way.  
A gentle giant, a spirit bright and bold,  
A story in my heart, more precious than pure gold.

**Outro**

Now sitting here, I feel you watching me,  
Resting peacefully, wild and truly free.  
Dreaming of green fields where you softly run,  
Until we meet again, beneath the setting sun.

**Outro - piano fade**
