Olivia's Campfire Glow

A Tribute Song

Intro - acoustic guitar, harmonica

Verse 1

On a Texas rescue page, your picture caught my eye
At the border, we first met, beneath a wide-open sky
We bonded right away, my beautiful Great Dane
And life with you began, washing away all pain
Fridays, off to the pet store, a bone for you to chew
Then a six-pack for me, our traditions were so true
We'd go home to enjoy, our simple, happy way
Looking forward to the fun, that filled each coming day

Chorus

Oh, Olivia, my big girl, for seven precious years
You brought such joy and laughter, drying away my tears
In every quiet moment, and every playful run
You are my dear companion, beneath the morning sun

Verse 2

Weekends at the beach, you'd splash and play with glee
Then walks through Peachland town, for everyone to see
You loved the campfire's warmth, while camping in the night
Watching popcorn pop for us, a sweet and simple sight
Your first time in the snow, a funny, curious quest
Trying hard to eat it all, putting your paws to the test
When Darlene and Jaxon moved in, a friend you found so true
Waking her up each morning, to share your love with you
Our breakfast was our quiet time, as morning light would gleam
A gentle, peaceful start, like a cherished, waking dream

Chorus

Olivia's Campfire Glow (continued)

Oh, Olivia, my big girl, for seven precious years
You brought such joy and laughter, drying away my tears
In every quiet moment, and every playful run
You are my dear companion, beneath the morning sun

Bridge

My heart still holds the whisper, that echoes in the air
"I love you, big girl," a love beyond compare
Those silent, morning moments, your head upon my knee
A memory I cherish, for all eternity

Instrumental - acoustic guitar, harmonica

Final Chorus

Oh, Olivia, my big girl, for seven precious years
You brought such joy and laughter, drying away my tears
In every quiet moment, and every playful run
You are my dear companion, beneath the morning sun

Outro

I hope you're running free now, with no more aches or pain
Playing in the sunshine, or dancing in the rain
Forever in my heart, you'll peacefully remain

Outro - guitar fade

Forever in our hearts
