Chloe's Quiet Peace

A Tribute Song

Intro - piano, strings

Verse 1

I remember your morning stretch, so long and deep
Then the click of your nails, from your soft, sweet sleep
Following me then, into the kitchen light
Knowing breakfast was coming, morning's pure delight
You'd hop up on two legs, a joyful, eager plea
Waiting for the spoon, an appetizer just for thee
A precious moment shared, a ritual we knew
My dear Chloe, my sweet, loyal friend, so true

Chorus

Oh, Chloe, my sweet girl, nine years and ten months flown too fast
Memories of your love, forever they will last
A beacon in my life, a comfort strong and deep
Your gentle spirit always, in my heart I'll keep

Verse 2

Coming home from work, after a busy day
You'd beg for my dinner, in your charming, special way
Mostly I'd give in, to that look in your eyes so bright
Then you'd nap in your bed, a peaceful, calming sight
I'd watch TV and just be there, quiet and serene
Just knowing you were present, a tranquil, lovely scene
The peace you brought me then, a solace I could find
A gentle, loving comfort, one of a kind

Chorus

Oh, Chloe, my sweet girl, nine years and ten months flown too fast
Memories of your love, forever they will last

Chloe's Quiet Peace (continued)

A beacon in my life, a comfort strong and deep
Your gentle spirit always, in my heart I'll keep

Bridge

I whispered to you then, with tears I couldn't hold
"Mommy loves you always and forever," a story to be told
"You will always be my baby girl," precious and so dear
That love remains eternal, banishing all fear

Instrumental - piano, flute

Final Chorus

Oh, Chloe, my sweet girl, nine years and ten months flown too fast
Memories of your love, forever they will last
A beacon in my life, a comfort strong and deep
Your gentle spirit always, in my heart I'll keep

Outro

Now you're chasing squirrels, with joy and endless grace
With April and Izzy, in that happy, peaceful place
Running free together, under skies so blue
Enjoying endless treats, waiting there for you

Outro - piano fade

Forever in our hearts
