Summer's Golden Smile

A Tribute Song

Intro - acoustic guitar, harmonica

Verse 1

I remember the sound of your tippy tappy nails on the floor
A welcome home symphony, knocking at my door
Your golden spirit, a shepherd's loyal heart so true
Doing figure-eight zoomies in the fresh morning snow for you

Chorus

Oh Summer, my dear Summer, for nine years by my side
You were a constant companion, my joy and my guide
With a love so pure, a bond forever strong
In every memory, is where you still belong

Verse 2

Those bedtime snuggles, a comfort in the night
Your head tucked in like a fox, a beautiful sight
With amber brown eyes, you'd gaze right into my soul
Making a broken man smile, making me whole

Chorus

Oh Summer, my dear Summer, for nine years by my side
You were a constant companion, my joy and my guide
With a love so pure, a bond forever strong
In every memory, is where you still belong

Bridge

Summer girl, you brought me peace and love so deep
Opened your heart when my own began to weep
You made me smile each day, a light so bright and clear

Summer's Golden Smile (continued)

I love you Summer girl, my baby girl, always near

Instrumental - acoustic guitar, banjo

Final Chorus

Oh Summer, my dear Summer, for nine years by my side
You were a constant companion, my joy and my guide
With a love so pure, a bond forever strong
In every memory, is where you still belong

Outro - guitar fade

Now you're rolling in luscious green grass, running through snow so white
Sunbathing with a smile, bathed in warm and endless light
Peaceful and free, across the fields you roam
My sweet Summer girl, forever I'll call you home.

Forever in our hearts
