Bella's Everlasting Smile

A Tribute Song

Intro - acoustic guitar, piano

Verse 1

The moment I'd walk through that front door, you'd know
A happy flat-coat, putting on quite a show
With a smiling excitement and a tail that would wag
No welcome was warmer, no spirits would lag.

Chorus

Oh, Bella, my sweet girl, my sun in the sky
For six and a half years, our love flew so high
Your spirit of joy, it still shines so bright
You fill every memory with everlasting light.

Verse 2

You'd be my alarm clock, with a nudge and a kiss
Waking me gently, a morning of bliss
And evenings, our comfort, on the couch, side by side
My Mama and Bella, nowhere else I would hide.

Chorus

Oh, Bella, my sweet girl, my sun in the sky
For six and a half years, our love flew so high
Your spirit of joy, it still shines so bright
You fill every memory with everlasting light.

Bridge

I love you to the moon and the stars, back again, it's true
To infinity and beyond, my sweet princess, I love you
We'll be together again, someday, I know

Bella's Everlasting Smile (continued)

Until then, my heart holds your beautiful glow.

Instrumental - ukulele, guitar

Final Chorus

Oh, Bella, my sweet girl, my sun in the sky
For six and a half years, our love flew so high
Your spirit of joy, it still shines so bright
You fill every memory with everlasting light!

Outro

Now running so free, chasing moths in the grass
With Sheeba and Bearbear, a joy meant to last
With belly to the sky, for a nap, soft and deep
And Granny is there, your sweet soul to keep.

Outro - guitar fade
