Kiev's Gentle Whisper

A Tribute Song

Intro - piano, synth pads

Verse 1

I remember those soft cuddle times, a purring, gentle hum,
Your tiny head against my cheek, my sweet companion come.
A tortoiseshell so beautiful, with patterns rich and deep,
You'd settle on my chest with trust, while all the world would sleep.
You'd sleep right on my pillow, dear, so close beside my face,
A tiny guardian through the night, a love no time erased.
My little shadow, soft and warm, a comfort I could find,
The dearest, sweetest feline friend, one of a special kind.

Chorus

Oh, Kiev, my beloved cat, a love so pure and true,
For two sweet years, my heart knew joy, all wrapped up close to you.
A gentle spirit, soft and bright, a comfort in the night,
Now shining as a memory, a guiding, loving light.

Verse 2

As soon as morning light appeared, you'd know that I was near,
Running swiftly to my side, chasing away all fear.
Your playful spirit, light and free, a joy in every day,
You had your own unique routine, in such a charming way.
Then breakfast time, a tiny plea, a meow within my ear,
You'd sit so close, with urgent sounds, making your wishes clear.
A fluffy face so near to mine, a gentle, rumbling sound,
The sweetest morning alarm clock, the best one to be found.

Chorus

Oh, Kiev, my beloved cat, a love so pure and true,
For two sweet years, my heart knew joy, all wrapped up close to you.

Kiev's Gentle Whisper (continued)

A gentle spirit, soft and bright, a comfort in the night,
Now shining as a memory, a guiding, loving light.

Bridge

Now free from every ache and pain, with sister and nephew, you roam,
I know you're playing in the sun, finding your peaceful home.
I miss your gentle presence, sweet, each passing day I mourn,
But I will meet you at the bridge, when a new day is born.

Instrumental - harp, piano

Final Chorus

Oh, Kiev, my beloved cat, a love so pure and true,
For two sweet years, my heart knew joy, all wrapped up close to you.
A gentle spirit, soft and bright, a comfort in the night,
Now shining as a memory, a guiding, loving light.

Outro - synth fade

Sleeping softly in the sun, no burdens left to bear,
Running wild and running free, a whisper in the air.

Forever in our hearts
