Tinkerbell's Morning Joy

A Tribute Song

Intro - acoustic guitar, glockenspiel

Verse 1

The day you came, a tiny sight
Mommy's face just glowed with light
A silky Yorkie, small and grand
The sweetest puppy in her hand
Our home grew brighter, warm and new
With every happy moment through
A brand new chapter then began
Part of our loving family plan

Chorus

Oh, Tinkerbell, our little star
No matter where you are
Fourteen wonderful years we shared
A love beyond compare
Our little angel, brave and true
Forever we will cherish you

Verse 2

At four AM, your gentle nudge
Our auto alarm, you'd never budge
Mommy's little love bug, by her side
Her loyal guard dog, filled with pride
You taught us joy in every way
Each moment brighter, day by day
We miss your greetings, soft and low
The brightest spirit we would know

Chorus

Tinkerbell's Morning Joy (continued)

Oh, Tinkerbell, our little star
No matter where you are
Fourteen wonderful years we shared
A love beyond compare
Our little angel, brave and true
Forever we will cherish you

Bridge

You were the best, our hearts all knew
The endless love you brought us through
By your side, as you crossed the Rainbow Bridge
To eternity, on that sacred ridge
We'll always hold you, close and deep
While precious memories we keep

Ukulele Solo

Final Chorus

Oh, Tinkerbell, our little star
No matter where you are
Fourteen wonderful years we shared
A love beyond compare
Our little angel, brave and true
Forever we will cherish you

Outro

Now running free on golden plains
Washed clean of sorrow, free of pains
Counting down the days we'll meet
For an eternity, so sweet
Our loving Angel, pure and bright
Held in our hearts, with all our might

Outro - ukulele fade

Forever in our hearts
