Nitro's Gentle Shadow

A Tribute Song

Intro - piano, synth pads

Verse 1

From the very start, you were close to me
My dear Staffie friend, for the world to see
Like my own true shadow, you'd sit on my knee
Always wanting kisses, wild and free
When I'd come home weary, from the day's long grind
A joyful sound you'd make, one of a kind
So much love and comfort, in your heart I'd find
A bond so deep and pure, leaving worries behind.

Chorus

Oh, Nitro, my sweet boy, twelve wonderful years
You dried away all of my silent tears
A loyal companion, through laughter and fears
My love for you echoes, through all of the spheres.

Verse 2

When night would descend, and the day was done
You'd lay down beside me, beneath the moon and sun
So close, like one skin, till the morning begun
Our peaceful slumber, a battle won
Then morning would break, with a gentle soft sigh
Your warm little kisses, would open my eye
A signal for breakfast, as hours flew by
Sweet memories cherished, beneath the blue sky.

Chorus

Oh, Nitro, my sweet boy, twelve wonderful years
You dried away all of my silent tears

Nitro's Gentle Shadow (continued)

A loyal companion, through laughter and fears
My love for you echoes, through all of the spheres.

Bridge

You would be terribly missed, we loved you so dear
We released you from pain, to vanish all fear
Over the Rainbow Bridge, your spirit is clear
A promise of reunion, in the coming year.
No more struggle now, just peace you will know
A beautiful spirit, that continues to glow.

Instrumental - piano, cello

Final Chorus

Oh, Nitro, my sweet boy, twelve wonderful years
You dried away all of my silent tears
A loyal companion, through laughter and fears
My love for you echoes, through all of the spheres.

Outro

Now you're pain-free, no more burdens to bear
Walking to your brothers, a joyful affair
Zeus and Diesel await, with love beyond compare
Running through bright fields, without a care.
All together once more, in heaven's soft light
My sweet Nitro, resting, peaceful and bright.

Outro - piano fade

Forever in our hearts
