Diesel's Golden Sun

A Tribute Song

Intro - acoustic guitar, harmonica

Verse 1

Every morning, a familiar sound,
Paws on the kitchen tiles, walking around.
Through the hallway, a daily delight,
My loyal Staffy, a morning light.

Chorus

Oh, Diesel, my old friend,
Sixteen years, right to the end.
A faithful heart, so true and bold,
A story of love, more precious than gold.

Verse 2

You'd follow me around, never too far,
Waiting for treats, wishing on a star.
Running on the beach, chasing every ball,
With your best brother Axel, standing tall.
You always greeted me when I came home,
Never once did I feel alone.

Chorus

Oh, Diesel, my old friend,
Sixteen years, right to the end.
A faithful heart, so true and bold,
A story of love, more precious than gold.

Bridge

Chase all the balls on the beach, my dear,

Diesel's Golden Sun (continued)

Everything is okay, banish every fear.
I love you forever, through every season,
You gave my life a beautiful reason.

Harmonica Solo

Final Chorus

Oh, Diesel, my old friend,
Sixteen years, right to the end.
A faithful heart, so true and bold,
A story of love, more precious than gold.

Outro

Now laying in the sun, peaceful and deep,
Changing balls, promises you keep.
Running free on golden sands so wide,
Forever here, right by my side.

Outro - guitar fade
