Sasha's Journey

A Tribute Song

Intro - acoustic guitar, harmonica

Verse 1

Ten years ago, a journey began
With a German Shepherd, a loyal friend
Our sole mate, a spirit so free
We saw the country, just you and me
Three years in an RV, side by side
My gentle giant, nowhere to hide
You were a moose, with a heart so grand
Your Kong ball always clutched in your mouth

Chorus

Oh, Sasha, my love, you were the best girl I knew
Ten awesome years, every moment with you
A paw print on my heart, forever etched deep
Your memory a treasure I will always keep

Verse 2

Morning walks exploring, the campground our quest
Sniffing out pee-mail, putting scents to the test
Chasing those squirrels, a joyful, wild chase
Evening strolls, always at your own pace
You loved to nap with Dad, a comforting sight
Keeping company on travel days, both day and night
A faithful shadow, a presence so true
Every day was better, just being with you

Chorus

Oh, Sasha, my love, you were the best girl I knew
Ten awesome years, every moment with you

Sasha's Journey (continued)

A paw print on my heart, forever etched deep
Your memory a treasure I will always keep

Verse 3

You were the Queen of the Campground, it's true
Loved canine reactions, especially to you
If ignored, you'd show a playful disdain
Then chase your favorite ball, through sun and through rain
Playing keep away, a game you adored
By the driver's seat, never once bored
Loved "bye bye" in the truck, with tricks you were grand
Earning nightly treats from my loving hand

Bridge

You were the best girl ever, my sweet, loyal friend
My favorite always, until the very end
Run free from pain, with a heart light and bold
We'll see you soon again, a story yet untold

Instrumental - banjo, acoustic guitar

Final Chorus

Oh, Sasha, my love, you were the best girl I knew
Ten awesome years, every moment with you
A paw print on my heart, forever etched deep
Your memory a treasure I will always keep

Outro

Now you're chasing squirrels, and squeaking your ball
Watching over your property, standing so tall
Keeping track of wildlife, beneath skies so blue
Forever running free, Sasha, forever loving you

Outro - guitar fade

Forever in our hearts
