Harley's Gentle Heart

A Tribute Song

Intro - acoustic guitar, harmonica

Verse 1

From the moment that we met, my sweet friend
You brought a love that would never end
A little pug-chi mix, with eyes so bright
You were the happiest dog, always full of light
Gentle and loving, with everyone you'd greet
Your presence made our home feel so complete
You always knew just when a hug was due
A loyal, precious heart, so kind and true

Chorus

Oh, Harley, dear Harley, for twelve precious years
You filled our lives with joy and calmed our fears
A bond unbroken, a love so deep and real
The purest comfort, only you could make us feel

Verse 2

When nighttime came and the day was through
You'd find your spot, as you always do
Curled up so close, right there next to me
A little shadow, as peaceful as could be
Your gentle breathing, a lullaby so sweet
Making every sleepy moment feel complete
A quiet presence, always by my side
With nowhere in the world for you to hide

Chorus

Oh, Harley, dear Harley, for twelve precious years
You filled our lives with joy and calmed our fears

Harley's Gentle Heart (continued)

A bond unbroken, a love so deep and real
The purest comfort, only you could make us feel

Bridge

Now go run free, my love, no more pain to bear
I will love you forever, beyond compare
Wait for me, my sweet one, I'll see you again
Our journey continues, until that day, my friend

Harmonica Solo

Final Chorus

Oh, Harley, dear Harley, for twelve precious years
You filled our lives with joy and calmed our fears
A bond unbroken, a love so deep and real
The purest comfort, only you could make us feel

Outro

Now I see you running, light and free
Chasing squirrels around every tree
No longer weary, just boundless grace
Sleeping peacefully in your special place

Outro - guitar fade

Forever in our hearts
