Lucy, My Soul Dog

A Tribute Song

Intro - piano, acoustic guitar

Verse 1

The day you came, a furry friend,
My heart knew then, our journey's blend.
A gentle Lab, with eyes so true,
I loved you, Lucy, and you loved me too.
My soul dog from the very start,
A special bond deep in my heart.
No words could say, what we both felt,
A love that time could never melt.

Chorus

Oh, Lucy, my sweet soul so deep,
Thirteen years of memories to keep.
You filled my world with joy and grace,
Forever held in this sacred place.

Verse 2

I cherish days we spent as one,
From morning light till setting sun.
Just you and I, a perfect pair,
Without a worry, without a care.
Your happy bark, your wagging tail,
A love that time could never fail.
You taught me patience, joy, and truth,
A faithful heart throughout your youth.

Chorus

Oh, Lucy, my sweet soul so deep,
Thirteen years of memories to keep.

Lucy, My Soul Dog (continued)

You filled my world with joy and grace,
Forever held in this sacred place.

Bridge

Though silence now fills every room,
And shadows chase away the bloom.
I whisper softly to the air,
"Oh Lucy, I miss you so much, my dear."

Instrumental - piano, synth pads

Final Chorus

Oh, Lucy, my sweet soul so deep,
Thirteen years of memories to keep.
You filled my world with joy and grace,
Forever held in this sacred place.

Outro

Now you're with loved ones, calm and bright,
In heaven's gentle, golden light.
With parents dear, you rest at peace,
Awaiting me, when my time is released.
Until then, sleep, my dearest friend,
Our love will never truly end.

Outro - piano fade
