

Remembering Ollie

Custom Pet Memorial Songs

Chip's Open Road

A Tribute Song

Intro - acoustic guitar, harmonica

Verse 1

From the very first day, you brightened my life
A loyal Kelpie spirit, a joy in all strife
Your presence was calming, your energy clear
Chasing shadows and worries, year after dear year
A bond interwoven, a love strong and true
Every morning with you felt brand-new
Your bright eyes would greet me, a faithful, warm gaze
Guiding my spirit through all of my days

Chorus

Oh, Chip, my dear friend, after fourteen and a half years
You taught me of joy, and you dried all my tears
Your paw in my hand, your heart close to mine
A love like no other, forever entwined

Verse 2

The long car rides we took, windows down, wind in your hair
Miles flew by quickly, without a single care
You'd lean in beside me, a comforting presence profound
No matter the journey, you loved every sound
Exploring new pathways, across every town
Never a moment where you wore a frown
Those moments together, etched deep in my soul
Making every long drive finally feel whole

Chorus

Oh, Chip, my dear friend, after fourteen and a half years
You taught me of joy, and you dried all my tears

Chip's Open Road (continued)

Your paw in my hand, your heart close to mine
A love like no other, forever entwined

Bridge

Now run free, my Chip, go find your old friends
Beyond the horizon, where the road never ends
I'll whisper your name, though you're out of my sight
And know in my heart, we'll meet again in the light

Harmonica Solo

Final Chorus

Oh, Chip, my dear friend, after fourteen and a half years
You taught me of joy, and you dried all my tears
Your paw in my hand, your heart close to mine
A love like no other, forever entwined

Outro

Now you're looking down over me, from above
A guardian spirit, watching with love
Running free, tail wagging, in fields ever green
The best boy a heart could have ever seen

Outro - guitar fade

Forever in our hearts
