Buddy's Sunshine Chase

A Tribute Song

Intro - acoustic guitar, harmonica

Verse 1

I remember when you first came home, a little beagle pup so small
The sound of your nails on the floor, echoing through the hall
A gentle patter, a rhythmic beat, wherever you would roam
A comforting presence, soft and sweet, filling up our home

Chorus

Oh Buddy, sweet Buddy, our loyal, loving friend
Thirteen cherished years we shared, until the very end
You're in our hearts, a shining light, though you're no longer near
We hold your memory ever tight, chasing away each tear

Verse 2

After dinner, the fun would start, with your stuffed cow held so dear
You'd flip it high with a joyful heart, banishing every fear
A playful prance, a happy bark, you'd want us to give chase
Leaving a lasting, loving mark, with a smile upon your face

Chorus

Oh Buddy, sweet Buddy, our loyal, loving friend
Thirteen cherished years we shared, until the very end
You're in our hearts, a shining light, though you're no longer near
We hold your memory ever tight, chasing away each tear

Verse 3

We'd often find you on the couch, in slumber, soft and deep,
No need for any hurried crouch, just peaceful, loving sleep.
Or snuggled close upon the bed, a warmth against our side,

Buddy's Sunshine Chase (continued)

Sweet dreams within your furry head, nowhere for love to hide.

Bridge

Bubs, you were mommy's boy, a love so pure and true
Life isn't quite the same, dear heart, without the joy of you
Mommy, Daddy, James, Danny, Mikey, we all miss you so
Our bestest dog, until we meet again, where gentle breezes blow

Harmonica Solo

Final Chorus

Oh Buddy, sweet Buddy, our loyal, loving friend
Thirteen cherished years we shared, until the very end
You're in our hearts, a shining light, though you're no longer near
We hold your memory ever tight, chasing away each tear

Outro

Now Bubs, you're sunbathing, peaceful and so free
Or sleeping on a cozy bed, for all eternity
We pass the couch and wish you'd roll, for scratches on your chest
But know you're running, happy soul, forever at your best.

Outro - guitar fade

Forever in our hearts
