Custom Pet Memorial Songs

Missy's Forever Kiss

A Tribute Song

Intro - piano, strings

Verse 1

The sun would rise, a brand new day
And your sweet kisses showed the way
A little face, a loving lick
My morning facewash, oh so quick
You'd greet the dawn, a tiny friend
Right to my face, until the end
And every night, before I slept
Your gentle love, my heart had kept

Chorus

Oh, Missy, my dear, my little star
You left a beautiful, lasting scar
For twelve long years, you blessed my life
Through every joy, through every strife
You're forever etched within my soul
Making my spirit truly whole

Verse 2

From dawn to dusk, and all between
The happiest dog I'd ever seen
Your special moments filled each day
You chased the shadows, loved to play
A shadow small, right by my side
With nothing in this world to hide
Your wagging tail, a joyful sign
A love so pure, profoundly mine

Chorus

Missy's Forever Kiss (continued)

Oh, Missy, my dear, my little star
You left a beautiful, lasting scar
For twelve long years, you blessed my life
Through every joy, through every strife
You're forever etched within my soul
Making my spirit truly whole

Verse 3

Your sniffing nose would guide us home,
At window pane, where cars would roam.
A tiny bark for cat or dog,
My constant partner, near and far.
My food you'd sample, with a sniff,
But yours near mine? A wary whiff!
Your paw on me, a steady guide,
Then over shoulder, you would hide.

Bridge

Mummy loves you always and forever, it's true
Mummy will see you again someday soon when I get there too
Until that day, my love, you'll feel me near
Eternally held, my precious, dear

Instrumental - strings, woodwinds

Final Chorus

Oh, Missy, my dear, my little star
You left a beautiful, lasting scar
For twelve long years, you blessed my life
Through every joy, through every strife
You're forever etched within my soul
Making my spirit truly whole

Outro

Now running free on green, soft ground
With happy smiles, no sorrow found
Among the dogs, in skies above
Enveloped in eternal love

Outro - strings fade

Forever in our hearts
